## 1/1200 SCALE AIRCRAFT

### CONCEPT

Fine scale aeroplanes for modelers to use with 1/1200<sup>th</sup> scale vessels or wargamers who want to represent airpower on the table with 1/6000<sup>th</sup>, 1/3000<sup>th</sup> or 1/2400<sup>th</sup> scale warships. We believe these are the smallest scale model aircraft that can be individually recognized and handled. All models represent carrier types or were used in maritime roles. Aircraft with retractable undercarriage are cast with pegs to allow modelers to deck mount their aircraft. These pegs can be easily removed with a needle file for those who do not require them. A start hole is present on the models for gamers who wish to deepen them and wire mount the models

### PRICING CODES
